The cottages have full bathrooms, full kitchens, wireless internet, and satellite TV. Add \$500 as a single hunter with single occupancy in a cottage. Non-hunter accommodation rate is \$500/ week.</p>
<p>Transportation</p>	<p>Guests will boat themselves to / from the hunting sites with the provided boats / motors / fuel / maps.</p>	<p>Boats and motors and fuel are all provided in Fly-In Outpost Fishing or Hunting Packages.</p>	<p>Guides drive all motorized vehicle transportation and associated fuel i.e. trucks, ATVs, and boats and motors.</p>
<p>Baiting</p>	<p>Food scraps from the restaurant, fish guts from the anglers, and some other specialty blends are used to bait in mature bears and keep them coming all season long. We put out food scraps from the end of may through to the bear hunting season and keep the trail cams snapping pictures.</p>	<p>None. Fly in baiting is prohibitively expensive. If fishing guests are present at camp prior to the bear hunting guests, Air Ivanhoe can request they select a location (or two) to have all food scraps and fish guts dumped.</p>	<p>Baiting for at least a month before hunters arrive at the lodge. We like to bait every third day for the first few weeks, and every day for the last week before hunters arrive (and while hunting) using dozens of trail cameras to ensure our hunters have excellent opportunities to harvest large mature bears. www.OntarioSportsman.com</p>

Tree stands	Tree stands and Ameristep ground blinds are provided.	Hunters are responsible for their own tree stands.	All tree stands are provided. Air Ivanhoe uses over 50 two person double wide ladder tree stands, and a half dozen Ameristep portable ground blinds for our hunters with difficulties or fears of climbing into tree stands.
Retrieving the bears from the woods & field dressing the bear	Hunter responsibility (with guide assistance) included with the fees for our fully guided bear hunt.	Hunter responsibilities	Guide responsibilities (with hunter assistance) included with the fees for our fully guided bear hunt.
Food	This American Plan package includes a full 3 meals a day plus all snacks and non-alcoholic beverages. Guests usually come to the lodge for a hot breakfast, take a lunch to go to spend the morning and early afternoon on the water fishing, and supper will be waiting in your camp.	Hunter responsibilities	Hunter responsibilities, but meals can be purchased from the restaurant at the Ivanhoe River Inn (or from the restaurant in Foleyet, which is about 4 miles away from the lodge). Groceries can also be purchased for cooking at the main lodge or in a general store in Foleyet.
Skinning and Quartering	For \$200, skinning and quartering will be done by Air Ivanhoe staff / guides.	Hunter responsibilities	For \$200, skinning and quartering will be done by Air Ivanhoe staff / guides.
Additional Costs	All anglers or hunters must purchase an outdoors card for \$9.68. The card is valid for 3 years. Bear Hunting Licence (\$236 for non residents), optional fishing licence (\$29 – \$51 for an 8 day licence depending on the number of fish sought to be kept by the angler), a temporary firearm registration fee of \$25 per hunter (unless hunters choose to hunt with archery equipment, in which case there is no firearm fee), and a CITES Export permit of \$35 for successful bear hunters bringing their bear across the US / Canada international border. Everything except government licences is subject to a 13% Canadian sales tax (HST).	Bear Hunting Licence, optional fishing licence, optional firearm registration, and potential export permit. A \$240 charter fee will be charged if the bear needs to be flown out of the bush prior to the scheduled departure date *(due to spoiling concerns) OR if an additional flight is required on the departure date because of the additional size / bulk of the animal. If the animal can fly on the groups scheduled departure date and does not overload the aircraft or require additional flights, there is no fee for flying the bear out.	Bear Hunting Licence, optional fishing licence, optional firearm registration, and potential export permit. Hunters also have an optional boat and motor package for \$220 per hunter based on 2 adults per boat for a boat, motor, unlimited fuel, live bait, and cooler ice for the boat. For an additional \$500, hunters on this package can add a guided wolf hunt to go with their 7 day bear hunting package. This package includes transportation up to 7 days or until both animals have been harvested. This option is only available for the first two weeks of the wolf season on a Saturday to Saturday basis (September 15-30) and requires a minimum of 4 hunters in camp.

Butchering	Guests have the option of placing the quarters into our freezers to take them home to a butcher, or to finish the butchering into steaks and burger themselves while at the fly-in lodge. Air Ivanhoe can provide any necessary butchering tools & knives and a space for butchering.	Hunter Responsibility	Guests have the option of placing the quarters into our freezers to take them home to a butcher, or to finish the butchering into steaks and burger themselves while at the main lodge. Air Ivanhoe can provide any necessary butchering tools & knives and a space for butchering.

Additional Hunting Opportunities: Air Ivanhoe also offers a self guided, self baited drive in bear hunt for \$399 / hunter including non-resident camping fees for the first week and \$99 / week for any additional weeks. Hunters are responsible to provide their own accommodations (tents / trailers / RVs) and basically be completely self sufficient. Area boundary maps will be provided on paper and digitally. Hunters are required to bring GPS units (Garmin suggested) to assure that they hunt within Air Ivanhoe's Bear Management areas and a large accessible tract (i.e. 10,000 acres or more) will be exclusively assigned to your group for the duration of your hunt. Moose hunting groups can also purchase bear hunting licences so long as they are hunting within Air Ivanhoe's bear management area (251,059 acres).

Additional Hunting Information: The bear hunting season starts on August 15, 2015 and runs until October 31, 2015. Our preferred baiting season is within the first month of the season to allow us to hunt near the blueberry and raspberry patches, using them like giant food plots. Rabbit season opens September 1st. Partridge season opens September 15th. Rabbit and partridge can be hunted with a seasonal small game licence which for non-residents costs \$118. Duck season opens September 10th and a duck stamp can be purchased for about \$20 from the local Post Office. Wolf season opens September 15th and a non-resident licence can be purchased over the counter for \$270. We run a guided wolf hunt during the first two weeks of the season. Hunters can enjoy a self-guided wolf hunt with us from September 15th – November 15th. To hunt either wolf or duck in Ontario, you must also purchase a small game licence. Archery moose hunting generally starts mid September and runs until the start of the rifle moose hunt in mid October. A non-resident moose licence costs \$472 and allows hunters to harvest a calf. A cow or bull tag can only be attached to your licence by an Ontario outfitter such as Air Ivanhoe that is annually allocated adult moose tags for distribution to our groups.

Weapons: Hunters can use a rifle, shotgun, or a bow (or both a gun and a bow at the same time if bear hunting). We suggest our archery hunters to also bring along a rifle for possible longer shots, which may be encountered while driving to the bait sites, if a mature bear recognizes that the hunter is in the stand and will not come within bow range, and for tracking of wounded bears.

Transportation to the Main Lodge: Hunters are responsible to get themselves to the main lodge to start their trip. Most of our guests will drive to our lodge. Its paved roads to our main drive in lodge at Ivanhoe Lake. For guests seeking to fly to our lodge (rather than drive), we would suggest flying to Toronto, Ontario and then flying to Timmins, Ontario. From Timmins, we can arrange to have a taxi

shuttle bring across your party (up to 4 in the group with gear) for \$150 total each way. For example, with two hunters in the group, their round trip transportation via taxi on the last 110 km (70 miles) would be \$150 each, or as a party of 4, transportation from Timmins to Ivanhoe Lake would cost \$75 each. Look to Porter Airlines or Air Canada for the best pricing from Toronto to Timmins.

Alternatively, we would suggest flying to Detroit, Michigan, then to Sault Saint Marie, Michigan and from there renting a vehicle to drive the remaining 400km (or 250 miles). It's about a 4 hour drive from Sault Sainte Marie, Michigan to Foleyet, Ontario.
